ProEnc Anti Ligature TV Enclosure Cut Sheet

ProEnc's Suicide Resistant TV Enclosure

Steel welded construction

<http://www.lcdtvenclosure.com>

Our anti ligature TV enclosure will accommodate both plasma and LCD screens for psychiatric units and correction facilities. Made from steel the enclosures bolt directly to the wall via the 4 mounting holes (for 12 mm or 1/2" bolts) in the rear of the enclosure, a large cable cut out (300 x 200 mm or 12" x 8") is also present in the rear of the enclosure so cables can pass into the rear of the enclosure without having cables exposed.

Each unit comes with an internal TV mount and the door is secured with 2 high security locks, the viewing window is constructed from Lexan and is virtually unbreakable. Our units have the thickest viewing window on the market and matches the US Federal requirement.

Enclosures available in the following sizes:

Code: NL26 For screens 17" to 26"

Overall size: (36") 916mm wide x (29 3/4") 756mm high x 200mm (8") deep.

Maximum viewable area of TV 580mm (23") wide x 320mm (13") high.

Code: NL36 For screens 27" to 36"

Overall size: 1148mm (45 1/4") wide x 748mm (29 1/2") high x 200mm (8") deep.

Maximum viewable area of TV 820mm (32 1/4") wide x 480mm (18 7/8") high.
